Hey Deb,

Here are my notes from Wednesday night's meeting, hope they can be helpful. I'm assuming that Dave Hammond has a handle on notes from the actual meeting itself? If not, be happy to share, just let me know.

Cody Park Report:

Annual Registration to Jeffco – Done, copy attached.

Cody Park, known for its multiple annual community parties, is getting ready to do it again. The Winter Party is in the planning stage, most likely will happen on Saturday the 1st of February.

New CPNA Board members, Brandy Maze, Jack Ferguson, Janet Sigman, brings us to a full board (6 members).

Mount Vernon Wildfire Mitigation Report:

Work on fire mitigation of parcels for which CCLC holds the CEs has begun, as per email received 1/11/2020 from John Strinter, MVCC BOD: "Please be advised that Jason Bullis will be starting work on Monday or Tuesday (13/14 Jan) doing fire mitigation on the 5 acre parcel of CCLC property right next to Connelly and Abel under the Fire Grant. ... Attached is a yellow area of the map (on CCLC property) - (top left hand corner of the attached) Jason will be working on. ... The work is expected to take 1-2 weeks.

On my to-do list:

- try to track down Aaron Boettcher and see if he can talk to us at a future meeting (I met him shortly after the Bald Mtn fire).
- renew connection with DU's University College Assistant Academic Director to see if they have either a Capstone or internship program for their Information & Communications Technology students. Note, we would have to create a very well-defined project, with explicit parameters, for any student taking this on.
- reach out to Evergreen FD, set up a field trip?
- research fire sirens, potential and probability
- research grants for fire sirens

Anything else you can think of?

*Warm regards and best wishes for the New Year,
Michelle
